

Luxury Pull Up Banner 850 x 2100mm
Banner 845 x 2100mm + 5mm bleed
Text inside the green line
Backgrounds out to the page edge
GUIDES layer: hide or delete

THIS TEMPLATE

- Finished banner: 845 x 2100mm for the 850mm stand. Page 1 is your working artboard at 855 x 2110mm - the banner plus 5mm bleed.
- The black dashed line is the trim - your banner is cut here.
- Green dashed line = safe zone. Keep all text and logos at least 10mm inside the trim edge - one conservative zone that covers every file format.
- Extend background colours and images all the way to the page edge (the 5mm bleed) so no white slivers appear after cutting.
- The pink bands are hidden once the banner is up: 10mm at the top inside the rail and 90mm at the bottom inside the base. The green line keeps text 10mm clear of both.

ADOBE ILLUSTRATOR / AFFINITY / INDESIGN

- Open the PDF - page 1 is the artboard. The guides sit on their own layer named GUIDES.
- Design on the YOUR ARTWORK layer, under the guides.
- Before saving: delete (or hide) the GUIDES layer, convert all fonts to outlines, and check your document colour mode is CMYK.
- Export as PDF (PDF/X-4 or Press Quality) at 100% scale with 5mm bleed and crop marks.

CANVA

- Create a design with custom size 855 x 2110mm (trim + bleed - this exact page size).
- Upload the matching PNG guide overlay from this pack, place it to fill the page, and lock it while you design.
- Keep text inside the green zone; run backgrounds to the page edge. Delete the overlay, then Share > Download > PDF Print, CMYK if available.
