WIRELESS

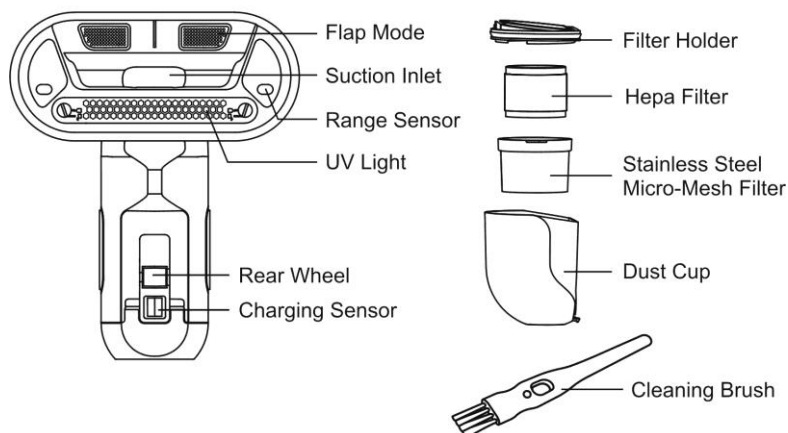

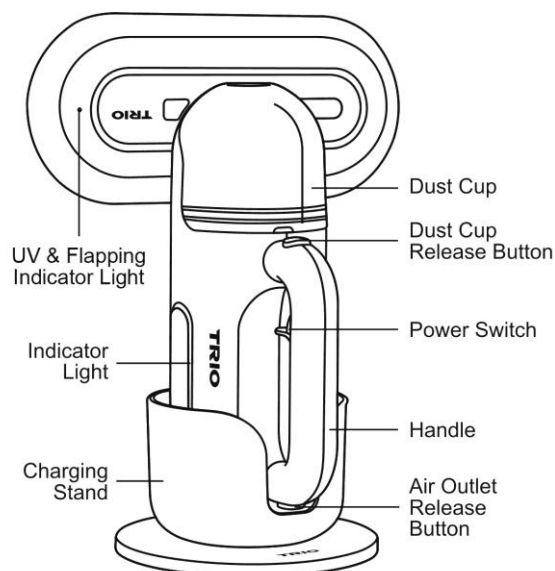

UV MITES KILLER

USER MANUAL

TMK-335

Parts Identification

Specifications

Model	TMK-335
Rated Voltage	21.6V
Rated Power	100W
Charge Time	4.5 Hour
Input Adaptor Voltage	100-240V~50/60Hz 1A
Output Adaptor Voltage	DC 26V 1A
Working Time	≥25min
Battery Capacity	2200mAh

General Safety Precautions

- Read this instruction manual carefully before using the appliance for the first time. Keep this user manual for future reference.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- Before using the appliance, check that the mains power voltage corresponds to the voltage shown on the rating label.
- Always remove the plug from the power socket when the appliance is not in use and before carrying out any cleaning or maintenance operations.
- Never use the cord to pull the plug and cord set from the mains power outlet. Hold the plug firmly to insert or remove it from the mains power supply.
- Always remove the plug from the power socket before opening the appliance.
- Never use spirits or other solvents to clean the appliance. Use a damp cloth.
- **Do not use the wireless UV mites killer to suck any liquids, oil, petrol and flammable objects like cigarettes.**
