After countless hours of research and development TOTO is pleased to incorporate the Physical Vapor Deposition (PVD) process for our Fitting products.

PVD is a vacuum coating process which allows us to produce fourteen brilliant finishes with excellent wear and corrosion resistance. PVD is also an environmentally friendly process that does not use harmful chemicals. We believe PVD will push technology boundaries and while shrinking our footprint on the environment.

PAINTED FINISH

Painted finish is now available on our Fittings. Available in Black and White, the painted finish offer an ultra-smooth finish that it also durable.
