

tera

The background of the entire page is a dense, vibrant illustration of a tropical jungle. It features a variety of plants, including large green leaves with prominent veins, some with natural holes (like Monstera leaves), and several bright pink and white flowers. The colors are rich and saturated, creating a lush, immersive atmosphere. The central text is set against a dark green, semi-transparent rectangular area that allows the background pattern to be visible through it.

About *Tera*

Nature holds countless elements and shapes that blend seamlessly together, creating a harmonious whole. From the flowing curves of rivers to the jagged edges of mountains, from delicate leaves to vast skies, every form and texture finds its place. This natural symphony of patterns and contrasts reveals an effortless balance, one that inspires, soothes, and reminds us of the intricate beauty of coexistence.

Tera series pursued an organic form, inspired by the beautiness of nature. It has elegant and exquisite lines that will make the space feel more alive. The soft, flowing lines breathe life into the room, making the bathroom feel more connected to the natural environment.

A close-up, low-angle shot of several long, dark green leaves, likely from a plant like a banana or a similar tropical species. The leaves are arranged diagonally across the frame, creating a sense of depth and movement. Small, clear water droplets are visible on the surface of the leaves, particularly on the one in the foreground. The lighting is soft and diffused, highlighting the texture of the leaves and the glistening of the water.

The Diminishing Balance of Nature

Tree Loss Disrupts Water Cycles and Nature's Balance

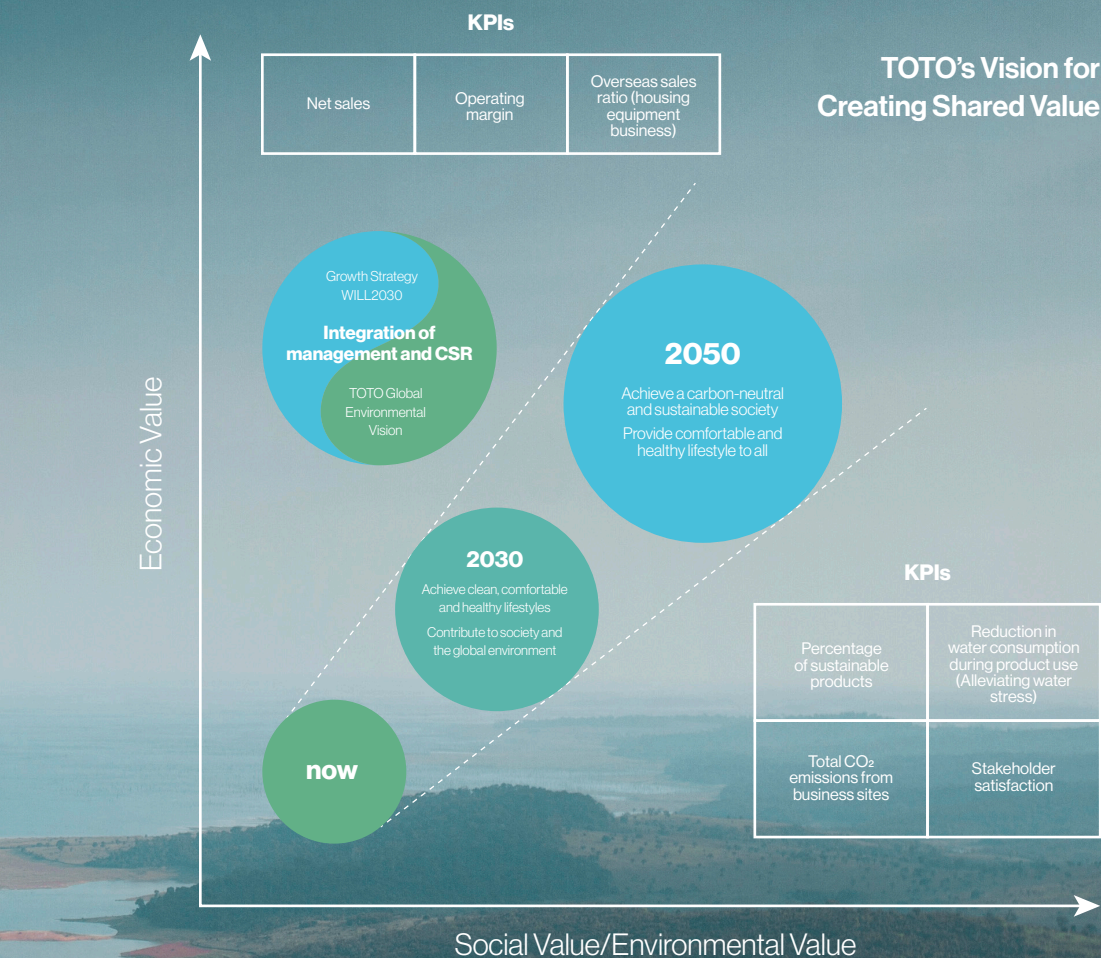

The Earth holds over 1.386 billion cubic kilometers of water (U.S. Geological Survey, 2019) and sustains around 3.04 trillion trees across tropical, temperate, and sub-arctic regions (World Population Review, 2025). Forests, which cover about 31.1% of the planet's land surface (World Bank, 2022), play a vital role in regulating water cycles by absorbing rainfall, storing groundwater, and maintaining atmospheric moisture.

According to the Global Forest Review by the World Resources Institute (WRI, 2024), global tree cover loss surged from 13.4 million hectares in 2001 to 29.6 million hectares in 2024, contributing to a total loss of over 517 million hectares since 2000. As forests disappear, water catchment areas are damaged, the soil becomes drier, and more water evaporates. The Earth's capacity to store and recycle freshwater is reduced, leading to disrupted water cycles, declining river flows, shrinking aquifers, and more severe droughts. These changes place increasing pressure on ecosystems and human communities worldwide.

New Shared Value Creation Strategy TOTO WILL2030

As part of its global sustainability vision, TOTO continues to move forward with TOTO WILL2030, a long-term commitment to realizing clean, comfortable, and healthy lifestyles while contributing to a sustainable society. The strategy unifies business and social responsibility, focusing on key priorities such as cleanliness and comfort, environmental care, and meaningful human connections.

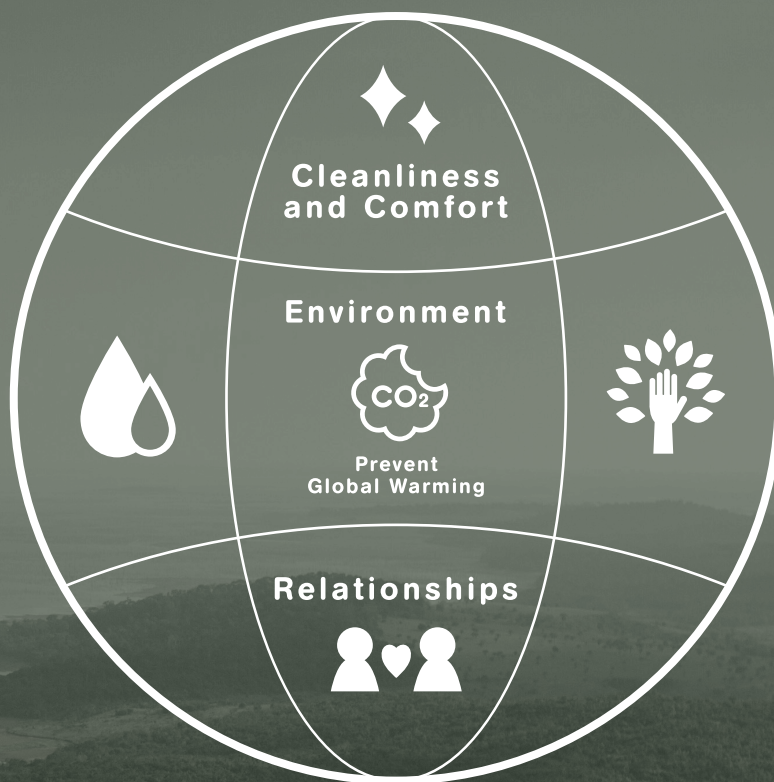

Social Value/Environmental Value

KPIs	FY2020	FY2030
Percentage of sustainable products	69% 74% (Japan) 56% (Overseas)	78% 85% (Japan) 70% (Overseas)
Reduction in water consumption during product use (Alleviating water stress)	0.9 billion m ³	1.7 billion m ³
Total CO ₂ emissions from business sites	357 thousand tons Note: Fiscal 2018 results	250 thousand tons
Stakeholder satisfaction	Employee satisfaction (Japan) 74 pts Showroom satisfaction (Japan) 73 pts Customer satisfaction in aftersales service 92 pts	Employee satisfaction (Japan) 80 pts Showroom satisfaction (Japan) 80 pts Customer satisfaction in aftersales service 95 pts

Economic Value

KPIs	FY2020	FY2030
Net sales	¥577.8 billion	Over ¥900.0 billion
Operating margin	6.9%	Over 10%
Overseas sales ratio (housing equipment business)	25%	Over 50%

Global Environmental Vision

Water, Earth & A Better Tomorrow

At TOTO, we're committed to improving life and the environment for a thriving future. Our production processes and products save water and energy, while reducing impact on the environment. We provide cleanliness and comfort while building relationships that enrich life. Water, Earth & a better Tomorrow All our group companies are dedicated to building a healthier and more sustainable tomorrow.

A breath of fresh air

Bringing the essence of nature into the bathroom, where every line flows like a gentle stream, just like water carving its way through the earth. It creates a space that feels as refreshing as a morning breeze, inviting serenity and renewal with every touch. Each curve acts as a breath of fresh air, transforming the bathroom into a peaceful heaven that feels alive, natural, and rejuvenating.

The *rhythm* of curves

Curve flows effortlessly, creating an organic rhythm that balances beauty and functionality. Water drops with ease, carrying with it a sense of purity and cleanliness. These curves infuse the space with life, offering not just hygiene, but a fresh, vibrant energy to any space, creating an atmosphere that feels both alive and peaceful.

TX 116 KHA V4 Extended Single Lever Lavatory Faucet with 1¼" Pop-Up Waste

Timeless *Serenity*

The deep, earthy tones evoke the calming presence of lush, thriving landscapes, where the colors of the earth resonate deeply with the spirit. The space flows smoothly, with each curve designed to make water glide naturally, keeping everything fresh and free of buildup. Like a graceful movement in nature, the design ensures a seamless, refreshing experience, where purity and freshness are preserved with ease.

The flowing lines capture a sense of eternal elegance, while the timeless forms within bring a quiet, creating a serene rhythm that complements both form and function.
