

Gemini 1x1 Soft RGBWW LED Panel (Standard Yoke, EU Power Cable)

Color your world with the industry's most versatile 1x1 LED soft panel.

SKU: 945-1101

Creative, compact & powerful cinematic lighting

Unleash your creative vision and bring high-quality cinematic lighting to your set with the compact and lightweight Gemini 1x1 Soft. Delivering the most lighting options ever seen in a 1x1 fixture, control light precisely from a beautiful soft white light to full saturated RGBWW control in an instant; Gemini delivers the ultimate flexibility you need for endless creative lighting options all in one unique fixture. Whether in the studio or out on location, the user-friendly quick-to-rig Gemini 1x1 could be the only panel you'll ever need.

Features:

Brighter for flexible lighting control

Create and modify light with more flexibility than ever before, the powerful Gemini 1x1 Soft produces over 700 lux of outstanding light at 3m, allowing you to shape and diffuse light to meet your vision. The brightest 1x1 in its class, Gemini's output means you can use higher framerates on your camera to capture incredible slow-motion scenes or bounce the light or use layers of diffusion to show your talent in their best light.

Cine quality, accurate white light for life in true color

True to life color reproduction comes naturally with Gemini. Consistently accurate and dependable white light with no color shift at any intensity from 100-0.1% means everything on set appears true to life and the skin tones of your on-screen talent are rendered perfectly.

Full RGB control for endless creativity

One light, infinite creativity. With precision control over 16.7 million colors and a wide range of gels and fully customizable cinematic effects, Gemini is the only fixture you will need on set. From simulating fire or a television, washing a white cyc or matching a color palette, Gemini's beautifully rich color output with outstanding depth, vibrancy and intensity means that whatever the situation the light you need is already on set and just the touch of a button away.

Five lighting modes make Gemini the most versatile way to perfectly light the scene.
