

CAPE ROYALE

SENTOSA COVE

Iconic architecture amidst pristine waters

Cape Royale draws inspiration from its luxurious seafront location with iconic curvilinear design on its facade to create beautiful coral-like details that are breathtaking to behold. The height of the towers and their staggered positions are highly functional, enabling units to enjoy panoramic vistas of their immaculate surrounds. Across its manicured grounds, sea creature-inspired sculptures adorn the landscape, creating pockets of art along key water features in the development.

Easy access to island attractions and mainland destinations

Cape Royale is easily accessible from the main island of Singapore via the HarbourFront MRT station and the Sentosa Gateway which links the development to major expressways, the shopping and business districts as well as the Greater Southern Waterfront. At around 2,000 hectares, the Greater Southern Waterfront stretches from Marina East to Pasir Panjang. Following the relocation of all port terminals to Tuas, the land will be redeveloped to include lifestyle enclaves, coastal promenades, an extension of the CBD and new commercial areas to bring work places closer to home.
