

DR. AMILA WICKRAMASINGHE

Dr. Wickramasinghe brings a rare and valuable interdisciplinary blend of expertise in energy economics and electrical engineering, which he applies in his role as a full-time consultant at RMA. His work spans a wide array of energy-related domains, including power system analysis, renewable energy project development, economic and financial evaluation, and project appraisal and ex-post evaluation.

Over the past 15 years, Dr. Wickramasinghe has led and contributed to numerous strategic assignments through RMA for prominent multilateral development agencies –including the Asian Development Bank (ADB), World Bank, Japan International Cooperation Agency (JICA), and the Asian Infrastructure Investment Bank (AIIB). His contributions have been instrumental in conducting due diligence studies and investment appraisals for large-scale power sector projects, helping shape policy and infrastructure in the region.

Dr. Wickramasinghe's combined technical depth and economic insight make him uniquely positioned to address the complexities of energy transition, sustainable finance, and renewable innovation.
