

BEYOND INSURANCE

Tune Protect empowers partners to unlock new revenue streams and enhance customer experiences through digital-first insurtech solutions. With seamless API integration, we make it easier for you to embed protection products that drive customer loyalty, increase ancillary sales and scale faster across markets.

CURRENT CHALLENGES IN INSURANCE

Partner Pain Points

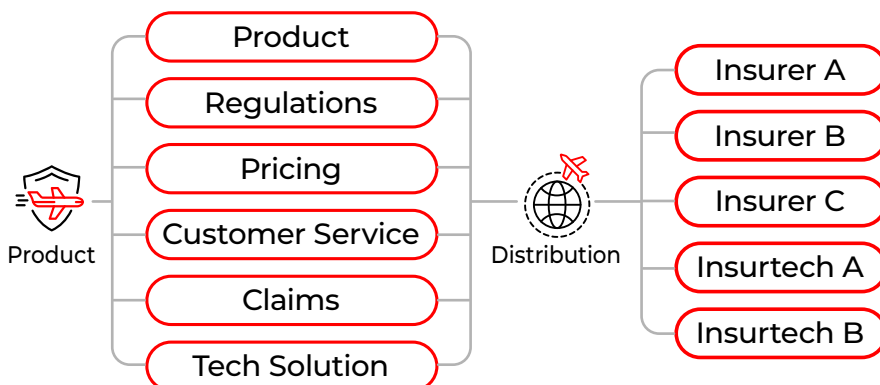

1. Outdated legacy systems that make it hard to integrate and scale.
2. Multi-country insurance activation is complex, often requiring multiple licenses and partners.
3. The growing need for plug-and-play protection in digital ecosystems.
4. Limited ancillary services to offer customers.
5. Complex and inefficient claims process.
6. Generating new revenue streams is difficult.

VS

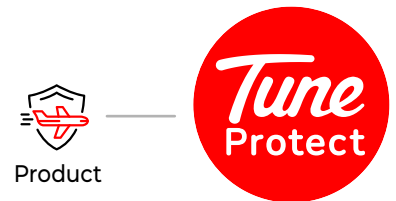

The Tune Protect Solution

1. End-to-end digital experience - from purchase to claims. Accessible via app or web.
2. A single API platform and one contact point enable rapid deployment across markets.
3. Embeds insurance natively into ecosystems (e.g. travel platforms, e-commerce, fintech).
4. Seamlessly add ancillary services (e.g. airport lounge access, baggage tracking, airport fast track).
5. Unified claims experience across markets via our electronic claim portal.
6. Unlock new revenue streams via value-added services and bundles.

COMPLEX LANDSCAPE...

...SIMPLIFIED

Our fullstack insurance solutions integrate cutting-edge technology to enable partners to embed, up-sell or cross-sell insurance.
