

Creating 2D Animation Is Easy Using Gen AI

June 2025

Agenda

- What is Vyond
- Types of Gen AI text-to-video
- Demonstration
- Q & A (10 mins)

Learning Outcomes

- Produce AI-driven videos using text-to-video technology in minutes
- Incorporate motion graphics to amplify your key messages
- Optimize and export your videos for various devices and platforms
- Introduce the content creation services (e.g. Vyond) offer by EMR.

Why Vyond? Why Not Other Software?

- AI generated text & video
- AI talking head, conversation & narration
- AI voice over
- AI caption

Generate Audio From Script

The screenshot shows the Vyond Text-to-Speech web application. The browser address bar displays `app.vyond.com/features/text-to-speech`. The interface is divided into two main sections: a voice selection panel on the left and a text input/output area on the right.

Left Panel (Voice Selection):

- Tab: **ALL VOICES** (selected)
- Language: **English** (dropdown)
- Region: **United States** (dropdown)
- Filters: **FILTERS** (icon)
- Voices listed (all Female, Adult, Tone available):
 - Ramona J.** (English (United States))
 - Selene R.** (English (United States))
 - Shelby D.** (English (United States))
 - Sofia H.**

Right Panel (Text Input/Output):

- Selected Voice: **Brian (Multilingual)**
- Speed: **Default speed** (dropdown)
- Pitch: **Default pitch** (dropdown)
- Character Count: **644/3000**
- Script Text:

Have you ever wondered what AI is?

Let's break it down. AI stands for Artificial Intelligence. It's the simulation of human intelligence in machines.

AI can be broken down into two types: narrow or weak AI and general AI.

Narrow AI is designed to perform a specific task while general AI has the ability to perform any intellectual task that a human can.

AI has the potential to revolutionize industries like healthcare, finance, and transportation.

For example, AI-powered medical devices can detect diseases earlier and more accurately than human doctors.

So, that's AI in a nutshell. It's an exciting field with endless possibilities.
- Audio Player: A speaker icon is visible at the bottom center.
- Button: **GENERATE** (orange button at the bottom right)
