

## 專題製作類課程-問卷調查與改善依據

# Practical Project Courses- Questionnaire survey and criteria of improvement

通識中心考量專題製作類課程之特性，有不限時間與地點之彈性，在課程意見回饋部分，課程 TA 會協助填寫輔導成果報告了解同學的學習歷程，且修課同學也必須填寫通識教育中心【專題製作類課程】回饋意見表。問卷設計的內容主要以開放性無記名問卷為主，以學生對專題製作類課程的特性、行動導向問題、解決策略與跨領域合作等之整體態度為重點，藉此做為課程修正改善之依據。

### Questionnaire survey and criteria of improvement

The General Education Center concerns about the characteristics of practical project courses, which are not limited to time or place. As to feedback of courses, TAs help to complete the reports and recognize students' learning process. The students are required to fill in the feedback on the practical project courses. The questionnaire design is based on open-ended and secret questionnaires. It investigates students' overall attitude toward characteristics of practical project courses, action oriented problems, solution and cross-field cooperation as the reference to improve the courses.
