

## Product Manager

We are looking for an experienced Product Manager who is passionate about building skilled gaming products that our customers love. You will join a dynamic and fast-paced environment and work with cross-functional teams to design, build and roll-out products that deliver the company's vision and strategy.

### Responsibilities:

- Gain a deep understanding of customer experience, identify and fill product gaps and generate new ideas that grow market share, improve customer experience and drive growth
- Create buy-in for the product vision both internally and with key external partners
- Translate product strategy into detailed requirements and prototypes
- Scope and prioritize activities based on business and customer impact
- Work closely with the technology team to deliver with quick time-to-market and optimal resources
- Drive product launches including working with design, content, marketing, operations, technology teams and other product management team members
- Act as a product evangelist to build awareness and understanding
- Use analytics tools to get product feedback
- Represent the company by contacting customers to solicit feedback on company products and services

### Requirements

- Proven work experience in product management (2 years +)
- Proven track record of managing all aspects of a successful product throughout its lifecycle
- Solid technical background with understanding and/or hands-on experience in software development and web technologies OR experience with either the gaming industry or the concept of gamification.
- Strong problem solving skills and willingness to roll up one's sleeves to get the job
- Skilled at working effectively with cross functional teams in a matrix organization
- Excellent written and verbal communication skills
- Mtech/Btech degree in Computer Science, Engineering or equivalent preferred.
- Ability to multi-task under pressure and work independently with minimal supervision.
- Ability to prioritize when under pressure
